Introduction:

Sometimes you hear lots of different rules for your licence from friends and family, but actually some of these rules may be incorrect!

It's really important to know what rules apply to your licence so that we can all keep each other safer on the roads and it means you won't get caught out driving in breach of your license conditions.

The Challenge!

- 1 As a team or on your own, you must correctly group the licensing conditions cards under each stage of the licensing journey.
- 2 When you think you have them all correct, ask your facilitator to come and check it out, they'll let you know if you've got it all right!
